The game has a diverse weapon system similar to other shooting games and has a mode to try a new gun. In addition, you also need to optimize the power of these guns to complete the game screen well. TACKLE THE WAVE OF ZOMBIES Players will enter a post-apocalyptic world where waves of zombies take place very quickly and spread all over the world. The cause comes from a pandemic of unknown origin, and because of it, the rate of spread is quite terrible when the number of zombies is increasing. Since then, a mission has been sent to the commandos to use the weapons they have to go to areas with zombies to defeat them and save the people they are pursuing. In addition, upon completion, they also receive a reward. In Zombie Hunter Sniper, you will transform into these commandos using all your weapons to defeat the required number of enemies. You will not be a target for these enemies to aim or move towards you. Specifically, you will appear in many different areas, such as above the building or standing at the street corner. These areas have in common that you can get a complete overview and accurately target moving enemies. TAKE ON A MISSION TO KILL ZOMBIES You will begin to experience the gameplay of this game, and the first time will be the levels in Campaign mode. The goal of this mode is entirely understandable that you need to defeat the zombies that appear. Simultaneously, the number of zombies that need to be destroyed is clearly shown at the top of the screen. It is also essential for you to know when you can complete the level, and the final target is defeated; the enemy's bullet effect will also change. You will control the character from a first-person perspective and will not move because your position is fixed. In addition, you only change the camera to see the environment completely clearly and aim at the enemy with absolute precision. In addition, as the name of this game suggests, players will get acquainted with the sniper first, and over time, your shooting and aiming skills will increase. The target you aim at is also straightforward to determine their direction of movement. Zombies in the game will usually have a slow movement speed, so you can guess the direction and choose the weak point to attack. Most of you will focus on the body, as that is the easiest part to shoot, but it will take a minimum of two shots to take down the zombies. But when you do a headshot, you will see that it is a critical shot, and it is not easy to do at all. Therefore, this is an opportunity for players to increase their shooting skills. WEAPON VARIETY PLAYERS CAN TRY Although the sniper is the weapon you see in the game's name, it is not the ultimate weapon and is only used by the character. Besides snipers, you can also find rifles and even bazookas to take down multiple enemies at once. From there, the player's experience can change and spend time improving his shooting skills. You will not only use one gun because the game supports primary weapons and secondary weapons. These two weapons are usually two different guns and support each other in many cases. If you see a zombie chasing a human, you should switch from sniper to rifle to quickly shoot them. In addition, each weapon will have a different characteristic that you will definitely like. Weapons Trial mode will be opened when you reach a certain level in the Campaign and try other weapons. BUY AND UPGRADE THE POWER OF GUNS One of the features that you will love is that you will buy many different guns to serve to defeat your zombies. You will spend time earning money completing each level, and it is undoubtedly a long process to complete. In addition, at each level, you will find information such as the amount of money you receive or the firepower requirements you will need to meet for your weapon. The requirement for firepower is absolutely a necessary feature to help you properly upgrade your weapons to trounce your enemies. So, you will spend your money to upgrade one of the gun's four elements: Power, Stability, Zoom, and Capacity. These four elements are entirely understandable, and you need to upgrade them correctly to fit the level. Surely any gun needs to be upgraded. Feel the action and survival horror in one of the best free zombie sniper shooting games. Survive killing zombies in a challenging first person shooter (FPS) with 3D graphics.Zombies walk among us! You are one of the few survivors of a pandemic infection that threatens to exterminate all humans. The zombie apocalypse begun after a scientific dropped a vial of virus in a secret laboratory.
