How deep is lake bernard

How deep is lake lochloosa. How deep is lake andrea. How deep is lake worth.

Sundridge, On (PRWEB) April 28, 2008 The popular Ontario vacation destination in Almaguin Highlands, located just 2 and a half hours north of Toronto, is home to a very unique lake. Lake Bernard, just north of the Muskoka Lakes District, has been considered the "Best Freshwater Lake in the world without an island of Guinness World Records, Mid approximately 7 km long and 2.5 km wide, Lake Bernard is large compared to most. of the thousands of lakes in Ontario. The fact that there are no islands on Lake Bernard is what differentiates it from other large lakes. Another interesting feature of this lake is that it is not connected to any other lake. This is quite unusual for a lake of its size. The lack of islands of Lake Bernard and the fact that it is not connected to any other lake is very curious since, just south, the region of the lakes of Muskoka is famous for its hundreds of lakes that are full of islands, and most of these lakes are interconnected. Why this anomaly? Many suggest that the lake is the result of an ancient meteor strike. This explanation has not been demonstrated conclusively. With an average depth of over 150 feet, and it was rumored. To be as deep as 400 feet in some places, the depth of Lake Bernard is also rare. A quiet lake with little motorboat traffic. Lake Bernard has remained sparsely developed with limited coastal development, which has helped to keep its waters exceptionally clean. The lack of building around the lake and the fact that a minimal setback of the lake edge is 66 feet or 100 feet where there is a present fish habitat means that the lake will remain in its beautiful natural state. For residents of the area and holidays, Lake Bernard is much better known for its fabulous fishing than for its claim to fame as a geographical rarity. Lake troutsthe white fish are abundant due to the size and depth of Lake Bernard. Other species on the lake include low and yellow perch. In the winter, ice fishing is extremely popular. Surprisingly, the lakelt has a large fishing and a population of abundant fish, inspires the fact that it is not an artificially stored lake. The Ministry of Environment and Fisheries uses Lake Bernard as an example of a sustainable natural fish habitat. Michael & Brenda Piraino, the owners of Lake Bernard's Northridge Inn & Resort (), understand the importance of the management of the lake and do everything possible to protect the lake and maintain its resort property in its beautiful natural desert state. "In addition to having a recycling program and using organic products wherever possible, we encourage native plants and never use herbicides or pesticides. We have more than 1450 feet from the shoreline of Lake Bernard and we believe it is our duty to protect it for the future. generations, "Michael States. "Our guests return time and again to Northridge Inn and Lake Bernard due to crystal clear water, fresh and clean air and pristine desert environment. Some of our older guests tell us that Lake Bernard and the highlands of Almaguin remind them of what Muskoka uses. To be so, before it develops too much, "Add Brenda. About Northridge Inn & Resort: Northridge Inn & Resort () is a full Ontario Resort service at the beautiful Lake Bernard in the central Ontario Almaguin Highlands tourist region. The Northridge Inn, Northridge Inn, offers Superior accommodation in a pristine lake view, hundreds of natural sandy beach feet, swimming pool, gourmet dining area, 3500 kilometers of boyfriend trails and excellent fishing. For your best holidays in Muskoka, Northridge Inn has many attractive and special getaway packages available. ### Share article on social media or email: Lake Bernard Frank "Infobox Lake Lake Name = Lake Bernard Frank Image Lake = Caption Lake =of the image = CAPTION BATHYMETRY = Location = Derwood, Maryland Coords = Coord | 39,105654 | N | 39,105654 | n | 77.114496 | W | Type: Waterbody Region: USA UU | Display = InLine, type type = Deposit Wikipedia Lake Á For other uses, see Lake (disambiguation). Lake Oeschinen in the Swiss Alps A lake is a relatively immobile fresh or salted body, located in a basin surrounded by land. The lakes are inland and are not part of Wikipedia Bernard Romans (1720 1784) was a navigator, topographer, cartographer, naturalist, engineer, soldier, promoter and writer.
