It is said that Marco Antonio gave Cleopatra 200,000 books for the library, but this statement was challenged from antichathetic. Even after the fall of Carthage after the Punic Wars (264-146 A.C.), when Rome became Supreme and Alexandria fell under the influence of her, the city remained prosperous and continued to attract visitors from all over the world. It was not a building, but a vast body of buildings, all grouped around a larger central, which stood on very large pillars and pretty proportions. 285-246 A.C.) That sent invitations to rulers and scholars asking them to contribute to books. It is said that the manufacturers of the famous Temple of EDESSA boasted to be able to create something that future generations would compare to the Temple of Serapide to Alexandria. Hero was credited with extraordinary feats in engineering and technology, including the first car for sale, the force pump, and a theater of automatic figures that danced, among other inventions of him. After the Roman Emperor Costantino II Grande (L. Alessandria attracted scholars, scientists, philosophers, mathematicians, artists and historians. Under the Kingdom of Augustus there were disputes between Jews and Pagans and, while Christianity grew in popularity. Christians were added To public disorders. He therefore declared the martial law, took control of the royal palace and sent the co-regent in exile Cleopatra VII. The forces of the Christian Byzantines and Muslim Arabs fought for the control of the city, and Egypt, up to When the Arab forces prevailed in 646 and Egypt fell under Islamic dominion. The historian and scholar mangasarian writes, History of love? His markets were enriched with thirst and fabrics from the Bazaars of the East. Magasarian writes: "Isn't it." Similarly, religion is only the expression of the mentality of a people. Religion is nothing but an expression. In 1994, the first findings of a number of relics, statues and buildings in the port of Alexandria were made public. Churches were destroyed or turned into mosques and Christian legend says that it was during this period that the great library was burned down by the Muslim conquerors. Religion is only the summary of national ideas, thoughts and character. The city developed further during the Ptolemaic dynasty (323-30 BC) becoming the largest city of its time and later became a famous center of early Christianity. The Serapion was considered by the ancients as a sign of reconciliation between the architects of the pyramids and the creators of the Athenian Acropolis. Augustus consolidated his power in the provinces and restored Alexandria. (8) Perhaps nowhere has this turning point been more evident than in Alexandria. The following year, Cleopatra and Antony committed suicide and, with her death, the Ptolemaic lineage ended. Octavian became the first emperor of Rome and took the title of "Augustus." Did you like that definition? (230) No one knows how many books were in the library of Alexandria, but it has been estimated that 500,000. Alexandria was destroyed again in 115 A.D. during the war of Kitos, and was restored again, this time by the Emperor Hadrian, who, as a man of culture, took great interest in Alexandria. While CleMenes has taken a lot, the full expansion of Alexandria has arrived under the dominion of General Tolomeo of Alessandro and the dominion of the ptolemaic dynasty that followed. He founded Alexandria in the small port city of Rhakotis by the sea and began to transform him into a great capital. The great lighthouse was constantly destroyed by earthquakes as much of the port. Carthage (which has become largely prosperous due to the tire bag) was still a young port city when Alexandria began to thrive. Christianity and the decline of Alexandria Alexandria, who had been a city of prosperity and learning, became an arena of religious content between the new faith of Christians and the old faith of the pagan majority. The Byzantine Christian empire under Heraclius re-claimed the city in 628 EC, but lost it with the Arab Muslim invaders under Caliph Umar in 641 CE. In the year 400 CE Alexandria was constantly religious turbulence and, in 415 CE, he caused the murder of the neo-platonic hypathy philosopher and, according to some scholars, the combustion of the great library and the complete destruction of the Temple of Serapis. In the civil war that he followed him most of Alexandria was burned including, according to some scholars, the famous library. After conquering Syria in 332 BC, Alexander the Great descended into Egypt with his army. The city became his operational base in the next thirteen years until he and Cleopatra were defeated by Octavian Caesar in the Battle of Azio in 31 BC. Although he was greatly admired by the Egyptians (and was even declared demigod by the Oracle in Siwa), Alexander left Egypt only a few months after his arrival to march on Tyre in Phoenicia. Each book found was taken to the Library where it was decided whether to return it or confiscate it and replace it with a copy. Caesar arrived and, real or fake, proclaimed his indignation at the death of his former friend and ally. The palaces and large houses mentioned by Strabo did not exist at the time when Alexander founded the city. The parent, of which A' the offspring; Language influences thought, of which, originally, it was just the tool. 379-395) paganism was banned and Christianity encouraged. Under Theodosius I (r. Before this date, although the city, he knew his share of problems, he remained a stable environment. He is said to design the plan of the city, which was so admired later by the historian Strabo (1) After Christianity became the dominant faith, pagan sites such as the Temple of Serapis and the Serapion - both associated with the Library of Alexandria - were destroyed and the intellectuals who taught and studied there fled for more tolerant regions. An attempt to overthrow him. What is it with religion? The temple of Serapis was built on an artificial hill, whose climb was one hundred steps. 63 BC-21CE) which he wrote, The City it has magnificent public enclosures and royal palaces covering a quarter or even a third of the entire area. According to Oakes and Gahlin historians: There was room for up to 70,000 rolls of papyrus. It was said that religious scholars attended the library for research, and Alexandria had long attracted people of many different faiths competing for the domination of the city. The city it became constantly impoverished after the rise of christianity, both financially and culturally, and increasingly became a battleground for warring faiths. In 391 AD, the Christian Patriarch Theophilos followed Theodosius's leadership and had all pagan temples of Alexandria destroyed or converted into churches. Some critics have advanced the idea that the builders of this masterpiece intended to make it a composite structure, combining the different elements of Egyptian and Greek art into a harmonious ensemble. It serves as the port of Europe, it the profitable trade of India and Arabia. The library, begun under Ptolemy I (r. The greatest engineer and mathematician of his day, hero (also known as Airone, l. Alexandria declined quickly after this date with scholars, scientists and thinkers of all disciplines leaving the city for safer premises. Once it was the general belief that the mantle of Athens had fallen on the shoulders of Alexandria. It also became infamous for the religious conflicts that caused the clash of pagan, Jewish and Christian faiths after the rise of Christianity in the 4th and 5th centuries CE. Alexandria became a simple province of the Roman Empire under the rule of Augustus Caesar. Archimedes (l. For just as each of the kings would, from a love for splendor, add a little ornament to the public monuments, then he would provide himself at his own expense with a residence in addition to those already standing. Historians and connoisseurs say it was one of the greatest monuments of pagan civilization, second only to the temple of Jupiter I N Rome, and the inimitable Parthenon in Athens. It was left to its commander, Cleomenes, to build the city he had envisioned Alexander. What was not destroyed by the war was brought down by nature and, by 1323 CE, most of the Ptolemaic Alexandria had disappeared. 305-285 BC) was completed by Ptolemy II (287-212 BC) the great mathematician and astronomer might have taught there and was certainly studied there.
