By Peyton Brookes i piano image by marianne pichot from Fotolia.com La Clavinova, developed by Yamaha, is available in three series: CLP, CVP and CGP. Each series offers unique features that complement the skill set of the beginner or professional pianist. The CLP series, which focuses on the training of beginners, does not support the download of songs. The CVP and CGP series, designed for the most advanced readers, each have an ensemble mode for mixing additional music, and both allow downloading songs. Downloading songs is a simple process, which takes only a few steps. Insert a USB stick with enough space to hold your songs. The Yamaha site provides downloadable tracks that you can store on removable media. Go to the Yamaha MusicSoft website. The site offers a range of songs that you can download for your Clavinova. (See Resources). Click on the drop-down menu "Pass 1" to select "Clavinova". Click the drop-down menu "Select the Clavinova model" to select the model. Click "Send" to search for compatible products. Click "PianoSoft", "MIDI Files" or "Style Files" to search for downloadable tracks files. Browse the available tracks and click the "Add to cart" button when you find the appropriate selections. Click on the "Proceede with Payment" button and create a new account or enter your current account details. Enter your contact and payment details. Click "Send" to complete your purchase. Click the "Download" button. Alternatively, click the "My Account" link and then click "Download" to view the purchased downloads. Click on "Save on disk." Switch to the USB flash drive in the Save dialog box. Click "Save." Right-click the file and select "Unzip" from the pop-up menu. This extracts music files from the zipped folder. Alternatively, double-click the download file and copy the files to the zip folder; paste the files to your USB stick. Enter the key in the open "USB to Device" port of your Clavinova. MP3 files are generally available on the Internet for computer download or transfer to an audio player like an iPod or another music device. Downloading and saving an MP3 file on your computer only takes a few steps. Visit one of the many websites that sell MP3--Amazon.com, Walmart.com, iTunes.com, Napster.com and MP3Download files. network are some great. Most of them require you to register a user account. Most sites charge a fee to download MP3 files. Typically, a membership allows you to download a number of MP3 files every month. Files can be purchased with a credit card or a gift card. MP3 files are generally intended for personal, non-commercial use. You can burn files in a compact disk, play them on your computer or transfer them to the MP3 player. But it is not allowed to copy them for friends or use them for a commercial purpose. To download an MP3 file on your PC, right-click the MP3 file Download option and select "Save destination as" if you use Internet Explorer or "Save Link as" if you use Firefox. Next, switch to the directory where you want the file to be saved. Once the download is complete, you can open the file to play or transfer it to MP3 player. To play the downloaded MP3 file, open it in Windows Media Player, Real Player or any other music player. To download an MP3 file on your Macintosh computer, click the "Download" button of the MP3 file and select "Save this link as". Select the directory where you want the file to be saved. Once you download the file, open the MP3 file in your favorite music player or transfer it to your iPod or other MP3 player. From Christina Shaffer the images courtesy of Microsoft. The Philips GoGear MP3 allows you to synchronize hundreds of your favorite songs from your PC and listen to them on the move. Many GoGear models are bundled with Philips Songbird software for transferring music and video to the device. After importing your music or ripping an album to your Songbird music library, you can sync them directly to the GoGear using the drag-and-drop method. Before syncing files, however, make sure they are in a format supported by the player model, such as MP3 or WAV. Connect the Philips GoGear to your computer using the USB cable of your device. Addto your Songbird music library by clicking the "File" tab and selecting the "Import Media" option. Select the folder that contains the songs you want to sync with your device, like My Music, and click "OK". Click "Music" in the library pane forAll the songs you imported. Select the songs you want to sync with your device. To select multiple tracks, hold the "Ctrl" button on the keyboard and click each song with the mouse. Click and drag the highlighted songs into the Philips GoGear icon in the Library pane to automatically sync files to the device. When we asked you to share what music helps you do things, more than some of you responded to Philip Glass. Today on Amazon, you can increase your Glass Catalogue for the low price of zilch. Music is a personal choice, but most of us can not really order emails to Slayer or hit tight... If minimalist compositions and repetition structures put the brain in Let's-do-this mode, this free download from Amazon offers a sampling of some of the well-known scores of Glass. Looks like we have our afternoon listening. If you are looking for more whistle-while-you-work inspiration, check out our guide for the best sounds to get the job done. Rhapsody, Real Networks music subscription service, listened to Amazon moves and other non-restricted music vendors opening their own non-DRM MP3 store. The move also frees MP3s purchased over Verizon's V Cast service. [via]Click forTuesday, Amazon launched Amazon MP3, a new digital music store online sale so, you have a couple of songs or a big playlist on Spotify, but you'd love to listen to them offline. Luckily, Spotify has a way to download your favorite songs so you can enjoy them whenever you want. Before you get too excited, you'll need a couple of things: a device to store tracks on, an internet connection, and a Spotify Premium subscription. Prerequisites Spotify is a bit picky about what it allows you to download on some devices, so here's a quick summary: On a desktop, you can save your favorite tracks and playlists for offline listening, but "unlike mobile ones", albums and playlists are out of the equation. Desktop How to download your favorite songs to your desktop Downloading the full catalog of your favorite songs to a computer couldn't be simpler: just open the Spotify Favorite Songs section (using the Spotify application for MacOS or Windows) and press the Download button. That's it. How to download playlists to your desktop Step 1: When you see a well-crafted playlist you want to download, click the small heart-shaped icon, located directly to the right of the Play button, to save it to your library for easy access. (If you don't, the download option will remain hidden.) Step 2: Then, activate the Download slider in the top right corner of any playlist. The playlist will start downloading, but keep in mind that this may take some time depending on the size of the playlist and the speed of your internet connection. Once saved, the playlist will be accessed from the "Playlist" section on the left side of the Spotify application for MacOS and Windows, along with all other playlists (including those not downloaded for offline play). Mobile devices How to download Liked Songs, an album or a playlist on mobile devices Whether you're downloading your Liked Songs playlist, an album or a playlist, the process is always the same. Simply load the collection you want to save and tap the Download button in the top right corner. The tracks will start downloading. Note: You don't need to follow a playlist or album to download it to your mobile device. How to download a podcast on mobile devices Step 1: Watching a podcast (such as Trends with Benefits), you will see three dots in the top right corner of the screen. If you have an Android, you'll see three vertical dots. Click on these points and you will be taken to the information menu. Step 2: From here, tap Manage downloads. Step 3: You'll see a download icon next to each episode, allowing you to choose which episode you want to download.Note: If you're looking for a faster process, you can also click the three horizontal (or vertical) dots next to each episode. All you have to do now is click Download. Troubleshooting If it doesn't allow you to Other songs, it could be because you have reached the irritating limit of 3,333 songs per device. If this is the reason, try eliminating a playlist from library offline. This can help you make additional space for the songs you want to download. We also want to remember that you can download only on three devices simultaneously. It will simply not work if you try to download more. If you try to do this without luck, you can turn and turn off listening offline on one of the other devices. Recommendations of publishers
